The telegraph brings us some meagre 'details of the dreadful disaster by the foundering of the steamship Central America, by which over lour hundred human beings have gone to their het account. Mengre us they are, they are shocking indeed. The disaster occurred at night, it seems, and amidst a raging storm, with flashes of lightning showing the struggling wretches the horiors of their situation. It is to be hoped that, when the list of persons picked up and found comes to be complete, it will diminish the present scenning, but the aggregate is learful, in any event.

The number thus las known to be saved -cems to be as follows: By the orig Marine, 46. By the bark Eliza, 50.

By the back Saxony, 7. Total 113; the whole number of persons on board the steamer being over 600. Trying a New Tack.

The News, finding that it makes but over headway in its personal as-aults upon Judge Ran-DALL, the Republican candidate for Governor, tries a new tack, in Saturday's paper, and arraigns Gov. Baserono at the bar of public opinion, upon specific charges of official misconduct. These are: 1: that Gov. BASHFORD netoed the first Land Grant Bill, passed at the Extra Session last fall. 2: that immediately after said veto, some officer, director, or agent of the La Crosse & Milwankee R. R. Company, produced a private interview with Gov. Basarone, and arranged with him that a bill, containing the provisions of the one which subsequently became a law, should be passed by the Legislature and receive the Executive sanction. 3: that Gov. BASHFORD, or his private Secretary, or both of them, received from the La Crosse & Milwaukes R. R. Company \$50,000 -- to-wit \$40,000 in bonds and \$10,000 in cash-immediately after the adjournment of the Legislature, as a bonus for approving the bill conferring the North-West Lund

The News affects to be perfectly posted in the matter, and its semi official relations with the La Crosse & Milwaukee R. R. Company lend weight to its words. Is it true then, that this Company as the News charges, bribed Gov. Bashsonn with Fifty Thousand Dollars to sign the bill, giving them the North Western Land Grant? We are utterly incredulous as to the fact charged. We do not believe that the Company offered, or the Governor accepted, any bonus, or bribe whatever. And had the accusation proceeded from a paper unfriendly to both the Company and the Governor, we should have set it down to the account of mere political malice. But the News has always claimed to be the especial friend and champion of the La Crosse Company, and yet it taxes them with an act which, if proved, might be esteemed just cause for rescinding the law of last fall giving them the N. W. Land Grant. In justice then to the Company, as well as to the Governor, we call upon the News to make good its words. Let us hear the evidence anon which it bases the grave charge upon our State Executive and upon the Officers and Directors of leading Railroad Corporation. Witnesses are at hand and within call who can, in five minutes time, prove or aisprove this accusation. There need, then, be no delay, and in fairness to the accused parties, there should be some. Let the News, then, produce its proof that the La Grosse Company secured Gov. Bashford's assent to the Land Grant Bill by a bribe of FIFTY THOMESET DOLLARS. If it makes out its case, we promise that no Republican voice will or raised in de fence of the Governor, or the Company, If, on the other hand, it fails, we trust that no Demo cratic apologist will be found for so gress a calumny.

Sir. Shurz' Eligibility.

Some of our democratic cotemporaries take very much to heart the nomination by our party of Mr. Carl Schurz for Lieutenant Governor He being an adopted citizen, of course these consistent centlemen must succe at his claims to office. They affect to believe that he is not eligible. As Mr. Schurz came to this country in August 1852, his full term of five years has elapsed, and his papers of naturalization will be at the service of any one who disputes their existence when he is elected—as he surely will be; and he will fill the post with honor to him- and after keeping it several months sold it to anself and the people.

A DISGRACE TO THE STATE .-- The Report of the Investigating Committee shows that while | tified the pig as being his own, one declaring that the late Dr. Precivat, the State Geologiet, was he had fed it every day, and the other that he pinched with poverty, and went to his grave in the belief that the State had degraded him, the hog to Parkinson, swore to certain marks which late Governor (Burstow) had drawn, and had in agreed with the description of the "critter" in his possession a large sum of money belonging to the former! Dr. Percival died early May, 1856, and the Committee find, in their own | that of the other, and swore to the same. Unlanguage "that Wm. A.Barstow, acting Governor, had then in his possession a large amount of money belonging to him, which in common justice, guilty. We are of the opinion that Mr. Hog had ought to have been paid over; and that more than eight months after drawing from the Trea. each purty, and this accounts for his being a fat sury the last item (\$1175) and more than six pig, certainly. As to the ownership, both parties months after he had ceased to be Governor of the State by the decision of its highest judicial tribunal, he repaid into the State Treasury (on the 30th day of Sept., 1855) the sam of \$1760 drawn out by him on account of Dr. Percival's salary."

BANK FAILURES .- The bills of the Monso River Bank and the Sandford Bank, of Maine, are discredited in New York.

findson Bank Failure. The Hudson Chronicle, of the 12th, announces that the Farmer's Sank of that place closed its

doors the day before, and adds :

Dr. Olis Hoyt, the President and principal stockholder of the bank, has also made an assignment or his property for the benefit of his creditors, and removed to his term some three miles from town, which he still retains as a homestead. We have not been able to learn the full amount of the Doctor's liabilities, or assets, but unde-stand that all his home creditors are amply se-By the July report of the Comptroller, the

ILLINESS OF COL. BENTON .- We learned yester-ILLERS of Cot. Berron.—We learned yesterday with paintal surprise, that the Hou. Thomas R. Benton was lying in a state of dangerous, if not hopeless illness, at his residence in this city. On inquiring last evening of his physiciaes, we order-tood that he was suffering under an organic intestinal disease of several years' stand, ing, which, within a week past, assumed no very serious a condition as to threaten his life. Surgical skill afforded yesteriay at least temporary relief, and last evening he was somewhat better, but by no means out of danger. He is attended by those eminently skilled practioners, Mesers. Hall and May —National Intelligencer, 15th.

ROCK RIVER BANK .- We regret to acquouse ROCK RIVER BASK.—We regret to autounce the very sudden and unexpected failure of this Bank on Tuesday last. It made an assignment to E. R. Whatsworth Erg, for the benefit of creditors, depositors preferred. The bill-holders are of course secure, and we are authorized by Mr. Wadsworth to the puolic, that every depositor will be paid the full amount due min from the Bank. The general impression is that the Bank is perfectly solvent, and that if the efficers had made known their pressing necessities at the time abundant relief would have been funished.—Belvit Journal.

The escape was made about the hour of 7 A. M., and in manner as follows: By aid of a small strip of wood torn off from the cell partition he succeeded in pleking the key to bis cell door out of a lock in the cell opposite and turning the lock up to the graing, unlocked it—as any person readily can do—pussed through the open doors into the street and southerly through the village into the woods.—Mouroe Scut.

OPENING OF THE LAND OFFICE .- The location of a large portion of the Land Grant Rail Road having been made, it is confidently ex-pected that the Land Office in Hudson will be open for entry of lands within 80 days from the

present time.

We hope there will be a rush to enter lands by those who design to settle upon them. That there will be a rush we have no doubt, and those who design to secure lands will have to ba on hand.—Hudson Chronicle.

It is estimated that the surplus in the national treasury, at the end of the fiscal year, will be \$50,000,000. What disposition is to be made of this surplus now engages the attention of financiers and statesmen.—Az.

We would suggest that a committee, with the Secretary or War as chairman, and Baratow, Breslin & Co. as humble members, might discover some effectual remedy for this plethora.—

MELANCHOLY ACCIDENT. -A distressing occurrence took place last evening, resulting in the death by drowning of a son of Dr. J. P. Blake, a lad of ten years of age. He was in company with another boy, playing in a boat, in Fletchor's canal, when by the oversetting of the boat, or some other cause, they both fell into the water, and young Blake was drowned before assistance could be rendered. ## CITY MATTERS.

POLICE COURT, Sept. 19.

REFORE CLINTON WALWORTH, POLICE JUSTICE. John Brett, intoxicated, fined \$1. Charles Rier, disorderly, fined \$5.

A Hoggish Case.-Rather an odd case came up in the police court on Saturday about the ownership of a pig-a fat one. It seems that one Win, Parkinson bought a hog of his neighbor other person, whereupon a man named Thomas Spellan claimed that the pig was his, and prose cuted Parkinson for larceny. Both parties iden had fed it every night. The man who sold the dispute, and Spellan also gave a description of the animal which agreed in every particular with der these very peculiar circumstances the court

did not feel that he could find the defendan been partaking daily and nightly of the feed of tered sales of Real estate : FOURTH WARD. S 25 feet of L 5 and 6, B 82...... having belped to fatten him, we should be in-

DEATH FROM DRUNKENNESS .- A shoemake: named August Petete, was found dead in the streets of the Fifth Ward on Friday night, and taken to his house. He leaves a wife and one child. Thus another name is added to the long black list of Rum's victims.

The Census. We are indebted to Mr. S. CHAPMAN for the figures of the school and general consus of the Hisand-in-law, Dr. Thomas, Thom, will supply you with First and Seventh Wards. The number of children personally or by Express. It is a nore and speedy care of the worst cases of consumption, broachills, soith ward. 1813 Total. The total population of the First Ward is 4468 and of the Seventh 5524. These two wards have

been formed from the old First since the census of 1855. We understand, unofficially, that the total population of the 8d Ward is returned at 6,067, and we have already given the figures of the 4th ward

-5,000. The summary, so far, then, is as follows: Wards 1857. 4,488 5,524 6,067 5,000 5,130 3,624 21,059 17,829

Increase in the four wards, 3,780. There remain the 2d, 5th, 6th, 8th, and 9th wards to hear from. The heaviest increase will be in the 6th and 9th wards.

THE RAILWAY STATION INDICATOR .- This need and invaluable invention, one of the many offsprings of Wisconsin genius, has been tried with great success on the Milwaukee & Mississipp: R. R., and will be introduced and used apon this road, as it will, no doubt, be upon all the principal railroads in the country as soon as the machine can be manufactured. The one which was used for trial upon the M. & M R. R. had the names of all the stations between this city and Prairie du Chien, upon ît, aud when approscuing each, the conductor, instead of opening the door of the car and called out the name in such a nave an office open at Janesville on and after manner that not more than half the passengers Wednesday next for making entries of animals could understand him, would pull a string from and articles, and for the transaction of any other the outside, a bell would strike, and the cylinder revolve, exhibiting the name of the station in plain large letters that every one in the car could distinctly see, and those who wished to get out, had ample time for making preparations. The distance of the station from each terminus of the road, can be indicated by it equally as well as the ame of the station.

We learn that Mr. C. J. Switz, the inventor. intends soon to creet an establishment in this city for the manufacture of the Indicator. We wish him all the success that his labor merits, and that is not a little.

ACTUMN.—These are delicious days. Autumn has touched with new beauties all the aspects of Nature. No artist-pencil could limn pictures of such exquisite loveliness as are now tramed along every path—sot in the boughs of every forest—painted on every mead and upland. We stand now on the borders of the evening of the year, and every sunset is a new fold of glory in its mantle.—Partialo Express.

Good for our Buffels antemporary. We wish Good, for our Buffalo cotemporary. We wish

that he were here to describe our weather. These are admirable days. The equinoctial na knocked sunshine endwise. We defy Brown or any other artist to limn the pictures of mud, damp and unpleasantness visible here just now. We stand all day, and sneeze and drip, and nary" a sunset have we seen for a week or

thereabouts. P. S. This is written on Saturday; what Monday may bring is doubtful.

Good STREL PENS .- We are indebted to Mr. DAVIS, proprietor of the new wholesale establishment just opened in the splendid store erected by Mr. Shepaldson, on East Water street, between Wiscsnsin and Michigan streets, for a box of the Washington Medallion Pens. After giving them a fair trial, we are glad to be able to pronounce them a first rate article, doing excellent work, flowing easily, and entirely reliable.

Mr. Davis does not deal exclusively in steel pens, by any means, a fact which will be set forth more particularly in a day or two.

LITHOGRAPH OF ENGINE Co. No. 1 .- Mr. Sei-Wisconsin Street, in front of the old Engine House, surrounded by the members, in full uniform. The likenessess, especially of the Forema; and Assistants, are very good and nearly all the faces will be easily recognized. The lithograph is well executed.

WISCONSIN STATE DIRECTORY .- We commence this morning the work of printing this valuable book, and the publishers request us to state that advertisements can be inserted on reasonable terms and subscription will be received for the work. The advantage offered to advertisers by its large and general circuistion throughout the State, are great, and all who wish to avail themselves of it can be accommodated by calling on the publishers, SMITH, DUMOULIN & Co. at the office, No. 184 East Water St.

LECTURE ON FREE SUFFRAGE .- At the late gathering of the colored men at Racine, Mr. B. PARKER, who is represented as an able speaker, was appointed to set the cause of Free Suffrage sefore the people before the election. He is to speak at Young's Hall on Tuesday evening, and we advise all who desire to hear what one of the proscribed class, who is a man much respected where he is best known, has to say in favor of justice to his people.

IN A BAD CONDITION. - The lower part! of Milwaukee sireet, or that part from Detroit downwards is in a very bad condition. It has become so bad since the rainy weather commenced that it is dangerous to attempt to drive a vehicle of any description through, and for foot passengers it is impossible to pass that way without getting up to one's knees in mud. The Aldermen of the Third Wardshould give their attention to it immediately.

A Type Machine for the Spate Fair .- W earn that Messrs. jumped off at the first and second lutches awam off some distance; but the great mass remained on deck until the vessel went down, which was a miture or two afterwards. We were all drawn under the surface at least 20 foct, and when we arose were nearly stiffened. The rapidity with which I was drawn down tore the spar from my hands, and the life preserver from my body, and when I reached the surface, my clothing was almost all stripped off. I however, met a friend who had two life preservers, and who gave me one, and we also exized on spars of the wreck, which helped to sustain us.

About 100 passengers were struggling about, not to them having lost their life preservers, and others seizing the pleces at wreck which came up with us. The captain cut away the upper work of the vessel, so that when the bull sunk they would float off, but they were all dragged down and came up in fragments. Many persons were killed, stunned and drowned, by being struck by pieces of the wreck, which the pieces to others

pieces of the wreck, whilst the pieces to others were the vitinate means of safety. An occasion-al flash of lighthing showed to each other a sea of straggling forms—each strove to encourage his friend. At once we were altogether in a mass, but soon the waves separated us, and by successive flashes of lightning we discovered that we were being contured over a wide area, and soon found ourselves entirely some on the bottomics ocean. The rest of this account does not differ from that

A Desperate Hemedy. The old adage, that "desperate diseases require desperate remedies," is strikingly illustrated by the recent spasmodic attempt of the News to make a little political capital out of the Maine Law question. A few evenings since, several of our citizens met together by appointment to talk over the grawing evil of intemperance, and to devise, if possible, some means of checking its desolating progress. There were not over a dozen persons present; no speeches were made, no resolutions passed; and the only reference to politics was a remark made by one and assented to by all, that any movement for the suppression of Intemperance, to be successful, must be en tirely disconnected with political objects, or parties. A committee was appointed to consider and report upon the subject, and there the most

In the News of the following morning appear ed a flaming account of these proceedings, with flowing capituls, exciamation points, and other typographical devices, in which it was made to appear that the meeting was in fact a political one; that the Maine Law had been endorsed; that the nomination of Judge RANDALL, as a staunch advocate of that Law, had been enthusiastically responded to; that Mr. Cross had been denounced as opposed to it; and the Temperance men in the State had been formally summoned to the field to do battle against Cross and "the whiskey-drinking, beer-swiffing Democracy." In proof of all this the News published two resolutions, furnished by its "epecial reporter," as having been passed by the meeting, and proceeded to add that Judge RANDALL had been expected to address the meeting, but was detained by en gagements elsewhere, &c.

Every word of this was a deliberate falsehood Nothing of the kind had transpired at the meeting. No "reporter" from the News, or any other office, was present. The resolutions which the News published as passed by the meeting, the meeting never heard of till they saw them in the News. They were, in fact, manufactured in the News Office, and to order. The whole thing, in short, was a weak and wicked lie, got up and circulated for political effect; and though the chest was instantly exposed and indignantly denounced by the Republican press, the News has not yet had the grane to acknowledge or atone for the villainy, while its yone-fellow, the Sec-Bole-u religious paper at that, and claiming to be the organ of the German Catholics-makes haste to copy the audacious falsehood and to give it to its readers as truth ! Doubtle-s there will be found others of the Barstow press, as rocklers as the News and See-Bote, who will not scruple to give currency to this brazen fiction, even after its infamous character has been fully

A LEGACY AND LONGITUDE .- Mr. McCluskey, a gentleman worth some \$150,000, dying in Paris, left \$6,000 to a niece in Dabuque, lowa. The

The tertimony of Mr. H. D. L. Webster shows that two drafts were down on Messrs. D. Appleton & &o., and Ivison and Phinney for \$300 each in favor of Mr. Columbus A. Orvis, former gristant Superintendent, as compensation for assistant Superintendent, as compensation to his services in aiding to secure the introduction of certain books published by the above men-tioned houses; and that Mr. Barry, in conversa-sation with whoese entirely disapproved of the transaction when it came to his knowledge.

good ground for the charges of corruption made against Mr. Barry in this matter,

On the subject of the purchase and distribuion of the copies of Webster's Dictionary, the committee find a strange state of things, uncunting to remarkable, if not criminal neglect of duty, and mismanagement of affairs. The whole number of copies purchashed was 3,850, at \$1 (a) each, Mr. Barry acknowledging at one time the receipt at Mitwaukee of 3,950 copies "all correct," the publishers having contracted to pay

the freight to this city. "By a subsequent set of the Logislature, the purchase of 300 additional copies was authorized in \$556, all of which were forwarded and received by the school department."

Of the whole number, the committee find that

2,444 copies were distributed to the counties.-Phe committee further cay:

The statement of Mr. Burry, (marked C.) makes the number distributed up to Feb, 27, 1857, 2,639, and the number on hand for distribution 2,639, and the number on faind for distribution at that date, 733. As this is 22 copies more than the State has purchased altogether, there must be some error about it. The difference of 202 copies between the results arrived at by the committee and the statement of Mr. Barry, may probably be accounted for by the fact that his exhibit was made some days later than the ex-amiration made by the clerk of the committee, and that number of copies may have been fur-warded in that peried; but of this we have no

accessible proof.

Allowing for all discrepancies of this kind, and the number of Dictionaries remaining on hand, on the 2rth day of February last, was, according to the examinations of the committee, 914. By the statement of Mr. Barry, made later and cor

ected by the committee, it was 711.

Some of the counties being, last winter, imputient for their books; a resulution passed the Senate, directing all the remaining copies . to be brought to the Capitol. Mr. Barry had informed the Legislature that there were some back charges for freights, &c., to be provided for. January 30th, he was asked what was the amount of

these charges. Peb. 17th, he replied to the firs: resolution, stating that he could not deliver the Dictionaries till the charges were paid. A receipt is shown for the balance of freight money from the publishers, duted Feb. 10th.

The total amount of back freight and ware-house charges, which Mr. Barry then claimed as necessary to pay back charges on these Diction-tries, and deliver them at Madison, was \$62,72. But what must be thought of a cause, whose champions and advocates stoop to such means in the hope of achieving success? And what estimate is to be placed opon the Nees and Section 18 to be placed o knowledged and receipted for on the 16th of Feb-Mr. Bristol, assistant depot master at

The Rescrit in Maine.—Some of our Democratic papers are striving to find a little comfort in the fact that the Republican majority in Maine is not as large as it was last fall, keeping out of mind the other fior, that the total vote is greatly reduced. The Republican majority over all last year was about 17,000, in a poll of 120,000. These boxes of books which have cost the school districts of the newer and and more distant counties, the sam of about \$2,500, paid for long since, remained in the dopot about of months, and until \$\frac{5}{2}\$ additional charges had accumulated upon them. The Committee, after considerable search, floally found them last week at the book store of Messrs. Blies & Borchard in Mailson; one of the boxes had been opened; some, and probably fail of the copies have become mildeewed and mouldy—they having been boxed and keut in mouldy—they having been boxed and kept in warehouses and depots for nearly two years; while the schools of the Stato, whose money paid PERTY WILL TO DO.—The Newsrejoiced, the other day, that the circulation of the N. Y. Tribune was falling off. This was natural. The minions of slavery fear, as much as they hate, the covers, from frequent handling, and from nails which in some cases were found diven the chart. from nails which in some cases were found driven into them. To sum up all, Messrs, Blies & Erwhard claim about \$20 for advance charges, paid by them when the books came into their possession. Nothing has prevented the Conmittee from taking possesion of these books and forwarding them where they belong, but the last that the Superintendent's office is closed, and they are not able to find any record by which they can ascertain what counties have or have not been furnished since the adjournment of the Legislature."

With reference to the School Books, the Committee find a contract between three New York firms, apportioning the State among themselves by counties, and that their books were the ones mainly recommended by Mr. Barry. The Committee say:

Mr. Barry admits in his evidence, corresponding with these several publishers, in relation to supplying the State with school books, and that the was any party to this contract, or in any manner countenanced, approved, or had knowledge of it. The Assistant has also drawn his salary. It is in evidence before us that the office has not been open to the public during business hours more than one half the time-during the past year. That it was closed entirely during nearly the entire month of June last, and the committee now leave it closed, no Superintendent, Assistant, or Clerk being in the place to render them any assistance, or to attend to any duty of the public or State.

TELEGRAPHIC COMMUNICATION BETWEEN INDIA AND ENGLAND .- The necessity of receiving intelingence from India more frequently than by the ordinary mail routes, has already suggested to the association for the construction of a tele graphic line thither, by way of the Red Sea, and the practicability of employing the remainder of the Atlantic Cable for the purpose.

It is not unlikely, under the immediate excit ment of the last news from the seat of war, that the public will demand that some such arrangement shall be effected, particularly as the route s surveyed and the laying of wires can be proceeded with rapidity. The London Times thus describes the route:

Having exclusive possession of a firman from the Pasha of Egypt, and the Sublime Forte, for the Red Sea route, in necessity exists for the ex-ertion of any political influence in negotiations, nor for any further delay. SY LEGH HUST.

Abon Ben Adhem (may his tribe increase,)
Awoke one night from a deep dream of peace,
Andsaw within the moonlight of his room,
Minding it rich, and like a lifty to bloom,
An angel writing in a book of gold them hold,
Exoceting peace had made English me hold,
And to the present and made in the said,
And to write made and it is result as a wide made in the said,
And to write made all of rewest accord,
And in a write made all of rewest accord,
And in a write made is of said accord,
And in a brite one? Ben Authern asked "Not so,"
Replied the Angel. Those bright more low,
four checordward, "I brigh thee, those,
Write me as one who loves his fellow men."
The angel write and washad. The next ingit
He came again with a great watching light,
And showed the ammes thum level of Ocd had b est,
And to ! Ben Adhem's name led all the rest!

IVORY MANUFACTURES .- There are several sort

of ivory, differing from each other in composi-ion, durability, external appearance, and value the principal sources from which ivory is de-ived are the Western coast of Africa and Hinrived are the Western coast of Africa and Hindostan. Camarooivery is considered the best, on account of its color and transperency. In some of the best tusks the transparency can be discovered even on the outside. The manufacturers have a process by which they make poor ivery transparent, but it lasts only for a short time.—A third kind of ivery is called the Egyptian, which is considerably lower in price than the Indian, but in working there is much waste. By an analysis, the African ivery shows a proportion of animal to earthy matter of 101 to 100; the Indian, 76 to 100; and the Egyptian, 70 to 100. The value of ivery consumed in Sheffield, where it is much used in making handles to curlery, is about \$140,000, and nearly 500 persons are employed in working it up 'To make up the weight of 180 tons consumed in that place, there must be about 45,000 turks, whose average weight is 9 pounds.

60 to 100 pounds. A LOAK NOT NEGOTIAT.E.—The segent of a county in one of the Western States lately visi-ted New York to negotiate bonds, and called on a ltading banker with the expectation of having e gold shoveled into his pocket that he migh home by the next train 'What do you want the money for?" asked

"To build a court house and jail," was the "And have you called on me for advice?"
"Yes, ir. Knowing you to be acquainted
with the best houses I thought you could refer
me to them in a favorable manner." I will give you my advice and help very wil

lingly."

"Thank you, thank you."

"It is this. Put your bonds in your pocket and go home. When you get there take your bonds out of your pocket and put them into the

The visitor opened his eyes and his mouth.

"Yes, sir. Put them into the fire. Then tax our people and build your court house and jail. We can't give you money for any such purposes and you have no business to ask it. What do w and you have no business to ask it. What do we care for a court-house and juil out by the Missis-sippi river? This the way with you Westernmen? When you want to raise half a million of dollars you think all that is necessary is to make bonds 1. Now go back and do as I tell you—burn your bonds and tax your people. Nobody cares a picayuna whether you have a court-house or a pictydia's whether you have it court-house or not. If it should do no better than many other court-house justice won't be the gainer by it. I think it quite likely you would be better with a jail, and I'm sorry to say I can't help you to build it.—Evening Post.

SWEARING AND QUALIFYING.-There is a lawyer in Dearborn county, Indiana, known no less for excentricity than his legal lore. Many are the angedetes told of him. A man once went to him to be qualified for some petty office. Said he, "hold up your band, I'll swear you, but all creation couldn't qualify you.

When you see an old man, amiable, mild, equal ble, content and good humored, he sure that in his youth he has been just, generous and forbearing. In the end, he does not lament the past, nor fear the form. ar the future. manda terreta de la composição de la com
